INDEX TO VOLUME 53

January to December, 1948

NOTE—The articles and references in this index have been classified under leading subjects or topics, as far as practicable, and should be sought under such heads, which, together with all unclassified matter, are arranged alphabetically. Illustrated articles, or cuts standing by themselves, are indicated by an asterisk (*). The subject matter of editorials will be found classified under the subject with which they deal and marked (e). Many titles of articles are abbreviated, the aim being to give prominence to important words.

Mining with aluminum cable in Alabama, Nov.	*81
Neon lamps spot blown fuses, Feb.	*120
Pipe protects 2,300-volt cable, Jan.	*71
Power cable lowered with friction blocks, Nov.	*110
Preventing motor damage from phase failure, Apr.	112
Radio phones in stripping. C. A. Osborne, July	*79
Reduced-voltage starting of squirrel-cage motors, Dec.	*98
Safer signaling for shafts. E. B. Wagner, Dec.	*82
Sectionalization at Isabella. Kemp & Baker, Feb.	*102
Short cables used with coupling connectors used at Delmont Fuel, Jan.	*92
Shovel improved by torque limiters, July	*108
Shuttle car discharge controlled by automatic belt dispatching, July	*82
Slip-ring motor speed-torque depends on resistor steps, Oct.	*112
Spring absorbs shocks from cable-reel motor, Jan.	*90
Stripping insulation from large three-conductor cables, Dec.	*108
Exports—Coal export quotas discontinued Sept. 1, Sept.	151

F

Face Preparation

Coal mines of tomorrow, June	*87
Controlling dust at coal mines. J. J. Gray, Jan.	*76
Locating Airdox compressors—AMC, May	148
Raising machine output through production management. V. C. Stephens, Mar.	*84
Fire extinguishers which are faulty called in by Pyrene, Aug.	162

Foremen

Bawling out workers publicly sometimes right, Jan.	86
Better coal-mine management; procedure and results, Feb.	114
Building leaders via foremen's clubs, July	*74
Additions, Oct.	154
